OBJECTIVE

Motivated and detail-oriented B.Tech CSE final year student seeking a Full Stack Developer role where I can apply my skills in web development, database management, and modern technologies to build scalable applications.

EDUCATION

Usha Martin University **2022 – 2026**
B-Tech in Computer Science and Engineering *Ranchi, Jharkhand*
Symbiosis Public School **2020 – 2022**
Intermediate *Ranchi, Jharkhand*
Sarala Birla Public School **2009 – 2020**
Matriculation *Ranchi, Jharkhand*

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js
Backend: Python, Django / Node.js
Databases: SQLite, MySQL, MongoDB
Data & Analytics Tools: Microsoft Excel, Microsoft Power BI, Tableau
Tools: Git, GitHub, VS Code, REST APIs

EXPERIENCE

Full Stack Web Development Intern | Codezeal Private Limited ***July 2025 – September 2025***
Project: Real Estate Property Hub

- Developed a full-stack web application using HTML, CSS, JavaScript, and Django
- Designed a responsive and user-friendly interface for property browsing
- Implemented property filtering based on location and budget
- Integrated SQLite for database management
- Built backend logic to fetch and display real-time data
- Ensured mobile and desktop compatibility

PROJECT

Violence Detection System (Academic Project)

- Developed a real-time violence detection system using Python and Machine Learning
- Utilized Computer Vision (OpenCV) to process video frames
- Applied Deep Learning models (CNN) for activity classification
- Trained the model on labelled datasets to identify violent behaviour
- Implemented real-time alert system for detected incidents
- Improved accuracy through data preprocessing and model tuning

Portfolio Website

- Developed a modern personal portfolio using React, HTML, CSS, and JavaScript
- Designed a responsive and visually appealing user interface
- Showcased projects, technical skills, and contact information
- Implemented component-based architecture using React
- Ensured cross-device compatibility (mobile & desktop)

IPL Analytics Dashboard (Power BI)

- Developed an interactive dashboard using Microsoft Power BI
- Performed data modelling with relationships and star schema (fact & dimension tables)
- Analysed team and player performance using visualizations, KPIs, and dynamic filters
- Used Power Query (ETL) and DAX for data transformation and calculations
- Connected data from Excel/CSV/SQL sources

CERTIFICATE

Full Stack Web Development – freeCodeCamp
Microsoft Power BI Data Analysis – Microsoft Learn
Python Programming – Infosys Springboard
